

TOILET-PAPER #3 DECEMBER '20

FACULTY COUNCIL FSBS

The faculty council wishes all students and employees on the Faculty Social and Behavioral Sciences a very warm and happy holiday and an amazing new year!

As faculty council of the FSBS
There is something we have to confess
We participate in more than one event
Most of these however, are not so frequent
At the council meetings with the board
we let our voices be heard
These meetings are monthly you know,
last month was the third.

The board decides on the faculty, what goes and what does not
And even though the name sounds expensive, do not be distraught
These people are very pleased with us students, battles are rarely fought.
We also work with other students in the PAC, EC and MI
Quality within their programme is these students' cuppa tea
They'd be glad to hear what's wrong
Do you know their name yet? They won't come on too strong.
But when you guys' stress gets facultyary
Please contact us! It's not that scary

Also important is the EER
Responsible for the evaluation of it is what we are
In here is everything on testing
We'll gladly explain this to you with a grin
Furthermore we focus on important themes
Student wellbeing and sustainability are two of these
Studying in COVID-times can be pretty rough
That the faculty their policy could use a buff
On this we speak, with strength and vigor
But we need your opinion, to make our succes cheez bigger

Additionally, Flex studying is what we want
What's that? We hear you say loudly and not to taunt
We'd like you to know more, in you can way
So would you please be so kind, to fill in our survey?

Us seven will be there for you
Just like in Friends
With seven employees so they won't feel too blue
We try to always bring it to good ends.

FLEXIBLE EDUCATION

We as a Faculty council are researching the possible need for flexible education.
With this concept, a student is able to follow courses spread over the year with a minimum of two courses.
Instead of paying full tuition you pay for education per course. A more flexible education provides the possibility to participate in activities outside of your study program.

Right now, various study programs at the Faculty of Humanities have started a pilot for more flexible education. If you want to learn more about flexible education, you can check <https://students.uu.nl/en/hum/curriculum/flexible-study>.

Look for our survey at the instagram of the Faculty council, you can find it in our bio. It only takes two minutes and you would really help us!

COMIC OF THE MONTH
