

# TOILET PAPER FACULTYCOUNCIL FSBS

#4 JANUARY '21

## OUR YEAR GOALS

### Student services

This year the annual goal of student facility's focuses on the research and implementation of the possibility to flex-study at our faculty. By doing this we seek to lower the workload of our fellow students. This measure also strives to create an opening for students to participate in more extra curricular activities, like a boardyear or a position within a student councilation body

### Inclusiveness and Accessibility

As faculty council we are happy to announce that diversity and inclusion is one of our new annual goals. We think it is important that the University is a safe place for all its students and employees. During this year we are working with a university-wide action group that focuses on proposing better reporting policies on (sexual) harassment. We aim for a better work- and study climate at our faculty and University! We also work together with the university to take stock of things that could be improved regarding diversity and inclusion.

### Sustainability

Within our Faculty council, we highly value a sustainable University. Because this is how we will preserve our earth and will be able to pass it on for generations. We hoped to initiate sustainable plans and activities, such as a clothing swap or sweater day. Unfortunately Covid-19 made these plans impossible. However if you have a genius idea to virtually make our university more sustainable, we would love to hear about it! You can email us at [sw-faculteitsraadstudenten@uu.nl](mailto:sw-faculteitsraadstudenten@uu.nl)

### Enlarging supportbase

More transparency in our council structure, from within as well as facing outward. To make student participation more transparent and to become easier to follow for regular students we want to make the representation more visible. We want to achieve this by for example promoting what keeps us busy on instagram and to realise a website for people who are actively searching for this information. Besides that we also strive to hear the opinion of fellow students on our faculty.

### Labour market orientation and tutoring

As the faculty council we highly value the counselling of students during their time at our university. Therefore, our job market orientation and Tutoring need to be well organised and executed within all programs. We are currently implementing a tutoring checklist to make sure that every edu-

cation program provides the proper guidance that students require. Apart from that, we are also fairly busy with making our own checklist for the master programs.

### Students' and teachers' wellbeing

This year the subject of student and teacher wellbeing is more important than ever before. As faculty council it is our goal to make sure that both students and teachers are feeling okay, in this time of working at home because of COVID-19. The University offers a broad variety of wellbeing facilities, but these are not always commonly known among students.

Therefore, we want to promote these facilities to ensure that they become more well known. We use a.o. the flowchart to clear up who is able to help students with certain issues. Above that we also keep searching for new initiatives to improve wellbeing during this pandemic.

## WE ARE LOOKING FOR YOU!

Do you find our year goals to be interesting and do you want to contribute to achieving such goals? The Faculty Council is looking for new studentrepresentation in the year 2021-2022. During this year you will be contributing to policy making on our faculty and everything else that happens on our faculty. There will soon be a moment to receive more information about a council year. So keep an eye on our socials and when interested do not hesitate to contact one of us!

## COMIC OF THE MONTH

**FOKKE & SUKKE**  
HADDEN TOCH ECHT GOEIE VOORNEMENS

JA!  
IK WEET HET WEER:  
OVERSTAPPEN VAN  
ZORGVERZEKERING!

AH SHIT,  
TE LAAT!
